RAMBASE

Purchase orders

Quote requests

Accumulated
By order
Reorder point
Subcontracting

Triggers

A purchasing requirement needs to be fulfilled

Result

Purchase order created and registered if option selected

Sub-contracting	Subcontracting is based on external operations in manufacturing, reduce delivery lead time by swift processing
Reorder point	For products set up with reorder point and/or reorder quanity for efficient replenishment of inventory
By order	All requirements related to MTO products where there is not a defined buffer stock
Accumulated	Request a quote for an aggregated volume across customer sales orders, or planned productions
